De-Watering Gas Wells

Perforations:
- Jet pump and seating nipple to be run as far below the perf's as possible.

Power Fluid and Produced Fluid

By lowering the fluid level, the hydrostatic head above the perforations is lowered, enhancing gas production.

Static Fluid Level

Producing Fluid Level

2.875 Tubing

1.5 Coil Tubing/1.25 Integral Joint tubing

Casing

Tech-Flo 1.6 Jet Pump

No-Go Seal Assembly

2.875 Seating Nipple
