## Well Condition Data Sheet

Total plug back depth				Feet
Perforations depth				Feet
Pump depth				Feet
Working fluid level in casing				Feet above pump
Production rate desired				BPD
Oil API gravity				
Sour?				Yes/No
Water Cut?				%
Chloride concentration				PPM
Ph of water				
Gas production rate	MCF/Day			GLR
% H <sub>2</sub> S in gas				%
% CO <sub>2</sub> in gas				%
Solids description: sand, iron sulfide, etc.				
Particulates: size & percentage	Microns	Grain Size		%
Downhole: temperature & pressure	F. Degree			psi
Flow line pressure				psi
Pumping unit size (API Description)				
Casing size				Inches
Tubing size				Inches
Anchored: Yes / No				Depth
Rod string design and grade of rods				
	Taper 1			
	Taper 2			
	Taper 3			
Mud anchor? <input type="checkbox"/> Gas anchor? <input type="checkbox"/>	Mud anchor size			Inches
Pump off controller: Yes / No	Continuous	Timer	On	Off
Pumping speed				SPM
Stroke length				Inches
Typical pump configuration (API)				

Specific problems with current installation:
